

Please do not overturn the current Do Not Call List legislation. Prior to the Do Not Call legislation, we would be harrassed by telemarketers from 8am till 10pm. Calls would escalate from 5pm-9pm...our only family time. We were averaging approx. 12 calls per day recieving 4-6 of them between 7p and 8p at night. The solicitors were relentless and at times rude. I do not think it is fair for citizens to be subjected to this harrassment. If a consumer wants a product they will seek out the company at their leisure, not during dinner time, homework time or bed time.

Please do not give into solicitors demands, please protect the rights of the majority of citizens to the pursuit of happiness!

Thank you!

Sincerely,

Laurie Maxwell
